

Dimensional Shipping Extension- New 7-31-17

Extension Compatibility:

Magento version > 1.7 x

PHP version > 5.4

Please follow the below steps to configure the Dimensional Shipping Extension in your Magento store.

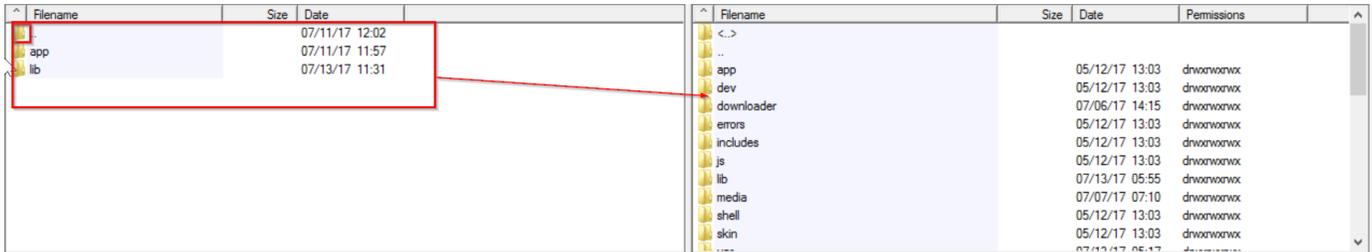

Extension Compatibility:

Magento version > 1.7 x

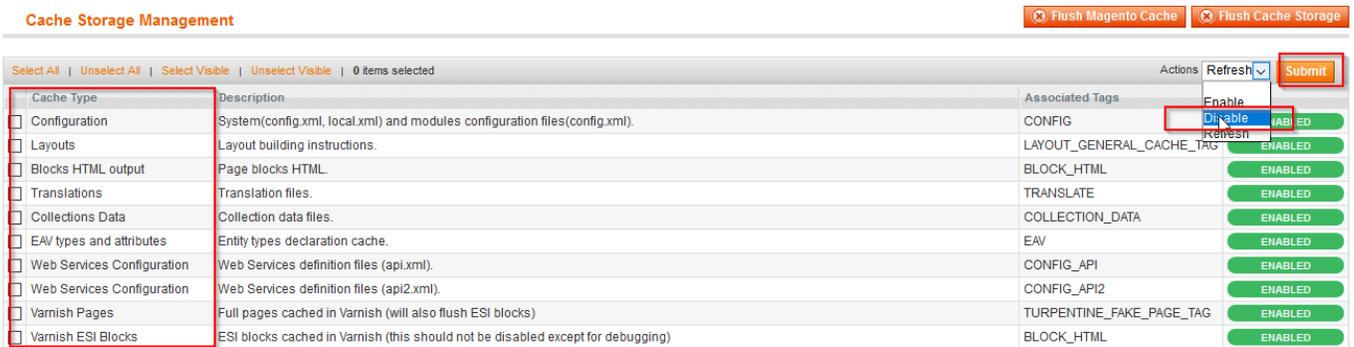

PHP version > 5.4

Installing the extension

1. Switch off the Magento Compiler: System>Tools>Compilation.
2. Ensure Cache is enabled: Admin> System>Cache Management.
3. Extract all the zip archive(s).
4. Upload the app and lib directory from your computer into your Magento root: root>httpdocs

1. Log out of admin and log back in. If you do not do this you will be shown a 404 Access Denied error.
2. Disable Cache in admin.

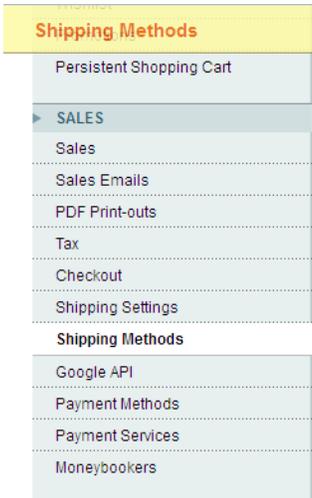

1. Open the frontend of your website to force the extension to load (this makes sure that the sql updates within the extension are performed).
2. **If you are using the compiler** you need to recompile: System>Tools>Compilation.
3. The extension should now be installed. Please check the backend to confirm.
4. 10. Re-index all data in Index Management (Configuration).
5. 11. Enable Cache in admin.

After the Installation Process:

1. Please fill all the information in the configuration settings

- Go to admin panel and open System>Configuration and select Sales>Shipping Method.

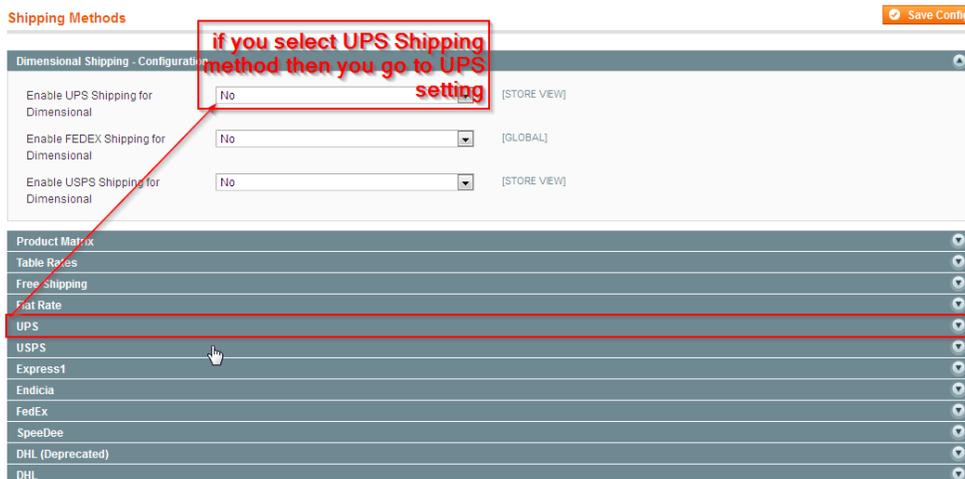

- Select the Dimensional Shipping method for your Website: **UPS, FEDEX and/or USPS**.

Shipping Methods

The screenshot shows the "Dimensional Shipping - Configuration" form. It contains three rows of settings, each with a label, a dropdown menu, and a scope indicator:

Label	Dropdown Value	Scope
Enable UPS Shipping for Dimensional	No	[STORE VIEW]
Enable FEDEX Shipping for Dimensional	No	[GLOBAL]
Enable USPS Shipping for Dimensional	No	[STORE VIEW]

- If you select the UPS Shipping method for Dimensional Shipping, then go to the UPS Shipping method setting.

Please select enable for checkout and fill in the required information.

- If you select the dimensional shipping FEDEX shipping method, then fill in the required information

Magazine (Default) [Back] [Reset] [Delete] [Duplicate] [Save] [Save and Continue Edit]

Dimensional Shipping Details [Create New Attribute]

Width	<input type="text" value="0"/>	[GLOBAL]
Height	<input type="text" value="0"/>	[GLOBAL]
Length	<input type="text"/>	[GLOBAL]

Product Information

- General
- Shipping
- Prices
- Meta Information
- Images
- Recurring Profile
- Design
- Gift Options
- Free Shipping
- Dimensional Shipping Details**
- Inventory

1. You can now go to the front end and add your product to the cart. You should see your shipping rate in the checkout page according to your product size.

Troubleshooting

After the extension installation the store gives an error, or blank page, or suggests starting Magento installation procedure.

Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

There is no Web 2 Market extensions under my configuration section, or having the extension tab clicked I get a blank page, or Access Denied error.

Clear the store cache, browser cookies, logout and login again.

I've set up everything correctly, inserted the HTML code but there is nothing on that page.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.

My configuration changes do not appear on the store.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.

Additional Questions or Issues

If you have any additional questions, issues, or need help with your new extension please contact us at help.web2market.com.

Thank you.
