Troubleshooting

After the extension installation the store gives an error, or blank page, or suggests starting Magento installation procedure.

- Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

There is no Web 2 Market extensions under my configuration section, or having the extension tab clicked I get a blank page, or Access Denied error.

- Clear the store cache, browser cookies, logout and login again.

I've set up everything correctly, inserted the HTML code but there is nothing on that page.

- Clear the store cache, clear your browser cache and domain cookies and refresh the page.

My configuration changes do not appear on the store.

- Clear the store cache, clear your browser cache and domain cookies and refresh the page.
